Medical & Pharmacy Continuing Education Seminar

Objectives

- Provide an overview of safety concerns related to opioid use in Maryland, specifically regarding the risk of overdose, including the dangers of medication combinations that put patients at a higher risk of overdose.
- Provide education related to national guidelines available to aid providers in the safe and effective prescribing of opioids, while minimizing the risk of overdose, abuse or diversion.
- Provide specific examples, using a case-based approach, of challenges faced by healthcare providers in Maryland when managing pain or opioid-related disease states.

Attendees must pre-register online at

www.marylandmedicaidpharmacyinformation.com

Pre-registration for physicians is available until 10/7/2016
There is no charge for attending the seminar - call 410-767-5945 for details
