

## MPS CME Programs that Count toward DEA Training

Please see below for a list of Maryland Psychiatric Society CME programs that count toward the DEA requirement for at least **8 hours of training on opioid or other substance use disorders**. Add the number of relevant CME credits you earned before 12/29/22 to determine whether you need additional training before renewing your DEA registration. The 8-hour training requirement starts on June 27, 2023 for renewals and applications. Please see the [DEA letter](#) and [SAMHSA guidance](#) for more information.
