#	PLEASE NOTE ANY CONCERNS:	DATE
1	All of us want options for our own future needs; how could we not want them for our patients, who deserve our best (i.e., our standard) level of care? I am sure I do not know enough about the subject.	7/31/2017 8:20 PM
2	This is an individual and social issue, not a legislative one	7/10/2017 3:17 PM
3	Excellent issue to discuss	7/10/2017 3:11 PM
4	STRONGLY oppose	7/3/2017 10:34 AM
5	Slippery slope - Do not support assisted suicide for psychiatric patients	7/3/2017 10:28 AM
6	Impossible to detect/investigate abuse	7/3/2017 10:27 AM
7	Unethical!	7/3/2017 9:58 AM
8	Might support in very limited circumstances	7/3/2017 9:54 AM
9	depends on the Legislation and physician participation.	6/26/2017 9:14 PM
10	Very difficult objectivity	6/13/2017 2:07 PM
11	This is not even a debatable issue. It's up to God to end life. Hospices giving Fentanyl and opiates to accelerate death -- it's immoral. It's KILLING, usually for monetary convenience of heirs.	6/13/2017 2:04 PM
12	Want to learn more; get educated on the topic in general	6/8/2017 10:47 AM

13	Depends on the carve ins and outs	6/6/2017 2:19 PM
14	This survey question is fraught with potential bias and problems. I do not think it is appropriate to publish the results. The question is worded in a bias way, the results will reflect self-selected bias and may be MISUSED by advocates on one side or another. I wish to be contacted to discuss this	5/31/2017 4:58 PM
15	I believe that it is important that the wish to suicide is not a product of a mental illness. Other values that arise are very important but not psychiatric.	5/31/2017 4:24 PM
16	I don't think it's appropriate to do an opinion survey on this issue since there is no context provided for this question and few members have even read the law.	5/30/2017 5:59 PM
17	A problem for society not for physicians to solve	5/23/2017 8:45 PM
18	I agree in theory , in practice how to evaluate is more problematic	5/22/2017 10:55 PM
19	G	5/22/2017 7:23 PM
20	Very ambivalent. Worried about potential abuses	5/22/2017 1:02 PM

1	driving to Baltimore for meetings is not going to happen, I am just too busy, and I hate the traffic. Ditto for Frederick & points west. I get that Maryland is a large enough State, and what's on offer must be centralized. I'll come to meetings near DC, which is what I do for CME. how about online CME with live broadcasting over the net/by phone?	7/31/2017 8:26 PM
