

**COVID Health & Safety:**

An inherent risk of exposure to COVID-19 exists in any public place where people are present. COVID-19 is an extremely contagious disease that can lead to severe illness and death. According to the Centers for Disease Control and Prevention, senior citizens and guests with underlying medical conditions are especially vulnerable. Although the Southern Psychiatric Association and The Maryland Psychiatric Society have instituted reasonable practices in an attempt to lessen or reduce the spread of COVID-19, [University/Foundation] cannot guarantee that you will never get exposed to the virus or get sick from it. By attending a Southern Psychiatric Association and The Maryland Psychiatric Society event, you voluntarily assume all risks related to exposure to COVID-19.

While we look forward to this private viewing, the health and safety of our guests remains our top priority. Please do not attend the event if you are experiencing any of the following symptoms:

- Cough
- Shortness of breath
- Sore throat
- Muscle Aches
- Headache
- Chills/Shaking
- Lost sense of taste/smell
- Fever greater than 100.4°F

Individually packaged masks, as well as hand sanitizing stations will be available for participant use.
