A letter to the future

Ok is the first Icelandic glacier to lose its status as a glacier.
In the next 200 years all our glaciers are expected to follow the same path.
This monument is to acknowledge that we know
what is happening and what needs to be done.
Only you know if we did it.

Without a sharp reduction in GHG emissions...
“We could see 10 - 13 feet of sea level rise in as few as 50 years...”
